DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, the recitation of the diamine BAPS has an uneven number of parenthesis.

In claim 7, it is unclear if or how the subject matter further limits claim 6 given that the A values are outside the corresponding scope per claim 6.

In claim 8, it is unclear if or how the subject matter further limits the base claim given that the recited diamines are not members of the Markush grouping set forth in the base claim.

In claim 9, line 3, "derived from of" is queried.

In claim 11, it is unclear if or how the polyetherimide distinguishes over the polyetherimide embodiment defining the base polyimide.

Response to Arguments

2. Applicant's arguments filed May 14, 2007, with respect to art rejections based on Rushkin et al and Kato and double patenting rejection have been fully considered and are persuasive. Consequently, said rejections have been withdrawn.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
